# Violation Scale

It is an index designed to rate a candidate on fair and ethical attempt of an online assessment. This score is derived using **EYE IN THE SKY™**, proprietary malpractice detection technology, and also reports the window violations attempted by a candidate and total time spent by moving outside the test on a system or browser.

**Low (0 - 1)**

A low violation rating indicates the likelihood that the candidate has attempted the assessment fairly without indulging in any malpractice. A malpractice would include incidences such as window switch, impersonation during the course of assessment, use of other devices, multiple logins, abrupt answering behavior and seeking the help of another individual during the assessment.
